

## **Australian Bristol Basic Urodynamics Course**

**11th December 2022  
Sydney, Australia**

### **COURSE DESCRIPTION**

The course covers the theory of urodynamics and offers some hands-on sessions with urodynamic equipment and the urodynamic staff.

Intended delegates: doctors, nurses, technicians and/or anyone allied to urodynamics who have little or no urodynamic experience.

## COURSE LOCATION

Crowne Plaza Sydney Coogee Beach  
242 Arden Street  
Coogee NSW 2034  
+61 2 9315 7600  
[www.coogeebeach.crowneplaza.com](http://www.coogeebeach.crowneplaza.com)  
Accommodation may be booked through the hotel directly.

## REGISTRATION

Please Register at: [www.innologic.com.au/education](http://www.innologic.com.au/education)  
Email contact: [education@innologic.com.au](mailto:education@innologic.com.au)  
Registration Fee:  
AUD \$770.00 incl GST  
NZ \$885.50 incl GST  
(Fee covers course attendance & meals as indicated on schedule.)

## CONTACT DETAILS & MARKETING

Marketing allows us to attract sponsors to keep these courses as economical as possible. Please consider selecting yes on the registration form to allow us to contact you regarding urodynamics and continence related materials and products.

## PAYMENT

Many payments look the same —  
Please ensure you send a remittance advice / proof of payment through to [accounts@innologic.com.au](mailto:accounts@innologic.com.au) to ensure your payment is credited to you. Also include your invoice number in your remittance. Please note that we will confirm your registration only after receipt of payment.  
Cancellations received within 30 days of commencement date will not be eligible for any refund.

## CANCELLATION POLICY

Innologic reserves the right to cancel any or all parts of these workshops without prior notice & shall not be held responsible for any costs incurred by the registrant.

## LEARNING

- appreciation of the philosophy behind urodynamic studies (UDS) as part of patient investigation
- basic knowledge of the principles behind the measurement of urine flow and pressure
- basic knowledge of the techniques of flow and pressure measurement
- ability to interpret straightforward urodynamic traces
- appreciation of the artefacts seen during UDS
- basic ability to operate urodynamic equipment

## PROGRAM

### DAY 1 11th December Registration 8.00am

|         |  |
|---------|--|
| 8.30am  | Welcome  |
| 8.45am  | Introduction to Urodynamics                                |
| 9.15am  | Principles of measuring urine flow and pressure            |
| 10.00am | <i>Coffee / tea break</i>                                  |
| 10.15am | Urine flow studies & filling cystometry: Practical Session |
| 11.15pm | Voiding cystometry: Practical Session                      |
| 12.15pm | <i>Lunch</i>   |
| 1.30pm  | Artefacts and pitfalls of urodynamics: Practical Session   |
| 2.30pm  | Female & Male Urodynamic Demonstration (Video)             |
| 3.30pm  | <i>Coffee / tea break</i>                                  |
| 3.45pm  | Urodynamics Hands-on session                               |
| 4.30pm  | Question & Answer Session                                  |
| 5.30pm  | <i>End of Day 1</i>  |

## COURSE FACULTY

**Andrew Gammie**, Clinical Engineer, Bristol Urological Institute

**Prof. Lewis Chan**, FRACS (Urol), DDU, Head of Urology, Concord Repatriation General Hospital

## BIOGRAPHIES

**Andrew Gammie**  
MA CEng MIEE CSci MIPEM

Andrew Gammie is the BUI clinical science lead for urodynamics research, database and equipment, consultancy for physiological measurement and equipment management. He works for international projects on urodynamics central reading and quality control, currently coordinating the ICS Quality Assurance scheme for reviewing urodynamic trace quality. He has been author in over 30 papers on urodynamics, chaired the ICS working group on Guidelines for Urodynamic Equipment Performance and is currently involved in research into novel techniques and training aids for urodynamic measurement. He is also a consultant clinical engineer for international procurement and equipment management in low and middle income countries, having worked with WHO, UNICEF and UKAID.

**Professor Lewis Chan**

Professor Chan is Head of Urology at Concord Repatriation General Hospital and Clinical Professor of Surgery at University of Sydney.

He has formal ultrasound qualifications and his subspecialty interests are bladder dysfunction, female urology and urological imaging. He is active in basic sciences and clinical research in bladder dysfunction with ageing and is a urology investigator for the Concord Health and Ageing in Men (CHAMP) Project.

## ABOUT INNOLOGIC

Innologic is a leading supplier of specialised medical equipment and consumables.

We constantly strive to provide exceptional service, whilst sourcing innovative and industry leading products & solutions for our customers.

Our core focus is urology, where we offer a wide range of products, including:

### Urodynamics

- Systems
- Consumables to suit most manufacturers
- Education

### Ultrasound

- Transperineal biopsy
- Surgical
- General imaging

### Biopsy systems and consumables

- Biopsy guns
- Grids
- Needle guides
- Stepper stabilisers

### Laser systems for

- Lithotripsy
- HoLEP

### Procedure couches
